Early Years Autism

Supporting families and settings together in Buckinghamshire

A One Day Course

The Early Years Autism one day course is for families of autistic children under 6 years old (with or without a diagnosis) and a supporting practitioner.

Up to 2 places will be allocated per family and one place for a practitioner from the child's setting.

The session aims to:

- Give An overview of 'What is Autism?'
- To look at the 'Key Areas of Difference' in the way autistic children learn and how these differences impact on children at home and in schools and settings.
- To begin to explore the strategies used to support autistic children, including visual supports, transitions, and the sensory environment.
- To explore ways of working together with your child's school or setting.
- To provide opportunities to meet and share experiences with other parents and ask questions specific to your child's and family's needs.

By completing the form, parents are agreeing that we may hold their information to support the admin process for this course.

To apply for the Early Years Autism One-Day course, families should complete the **Expression of Interest form**.
