

## Five Little Astronauts

Five little astronauts, flying in the stars.

The first one said, "Let's go and see Mars."

The second one said, "I see comets appear."

The third one said, "There are aliens up here."

The fourth one said, "Let's fly up in the sky."

The fifth one said, "Let's go really high."

Then, whoosh, went the spaceship. "Buckle up tight."

Five little astronauts floated out of sight.
